Awareness of Law and Rights (Credits – 4, Full Marks 100)

Course Objective:

India is the world's largest democracy. People's enlightened participation is regarded as a prerequisite for successful working of democracy. Thus it becomes imperative that planned effort must be made to enhance the level of awareness of the students about the rights they enjoy and basic law of the land. With the fast-changing political, economic, social, and technological scenario, the students need to know about the laws and use them for their advantage. The course will contribute in the evolution of legal understanding and spirit of rationality among the youth of our nation.

Learning Outcomes:

- a. The course will help to understand the laws and their application in normal life.
- b. The course will help the students in providing legal aid to the society.
- c. It will help the students in becoming enlightened and responsible citizens of the country.

Course Content:
